Dominion Prohibition Convention 1804.

To all friends of the Prohibition convention 1804.

To all friends of the Prohibition convention 1804.

It has been deemed desirable that there-hould be held at an early date, a general expresentative Convention to consider the present condition of our cause and to plan for further general united action for the suppression of the traffic in intoxicating beverages.

A convention of this nature was held in 1875. Another was held in 1875. Those gatherings aided materially in strengthening and unifying our forces. The time has come when we are likely to be brought as a nation, more directly than ever into a definite strangel for the immediate enactment of a horough prohibitory law.

In four of the provinces of the Dominion have resulted in immense majorities in favor of total prohibition. Another province has by the unanimous vote of its legislature memorialized the Dominion Parliament to the same effect. The Report of the Rayal Conversion of the Regins District Meeting of the Regins District of the Manitola and Northwestern Converse case lied in the Methodist Church, Regina, June 12th and 13th. The first days session opened at 9 a. m. tuesday, Rev. F. B. Stacey, chairman of the robistrict, presiding. The tollowing ministers answered to transmit the nature was held in the Methodist Church, Regina, June 12th and 13th. The first days session opened at 9 a. m. tuesday, Rev. F. B. Stacey, chairman of the robistrict, presiding. The tollowing ministers answered to the prostrict, presiding. The tollowing ministers answered to the prostrict, presiding. The tollowing ministers answered to the prostrict present on the first prostrict presents of the Manitola and Northwestern Concrete was held in the Methodist Church, Regina, June 12th and 13th. The first days session opened at 9 a. m. tuesday, Rev. F. B. Stacey, chairman of the traditional prostrict, presiding. The tollowing ministers answered to the minister and present confidence of the Manitoda and Northwestern Courselows and Island

tor him a long enjoyment of his pros.

perity; but death has come to him with speedier wing than would have been thought? year or two ago. The loss of such a man is a distinct diminution of the city's power of progress. If the average citizen is reckoned as worth a certain arbitrarily fixed sunt to his country, me like Duncan Melantyre must be valued immeasurably higher. They are the driving wheels of enterprise, and they help bring to the community in which they live the fruits that zealous enterprise every where bears. Montreal articles are the design of the sun and they help bring to the community in which they live the fruits that zealous enterprise every where bears. Montreal articles are the design of the sun and they help bring to the community in which they live the fruits that zealous enterprise every where bears.

Intro acust be valued immeasurably higher. They are the driving wheels of enterpise, and they help bring to the community in which they live the fruits that zealous enterprise every where bears. Montreal will sorrout at Mr. McIntyre's death, and Canada may well sorrow with us.—Star.

A United States Congressman, who is also a member of the congnitive of iailways and canals, has brought forward a scheme to open a water-way through to Hudson bay connecting the Missippi river with the great bay of the morth. If carried out, this would give water communication right through the entire of the continent, or from the Gulf of Mexico to Hudson bay connecting the Missisppi river, as far as the juncture of the Minnesota river with the former, near the city of St. Paul. The Missisppi river is of course already averaged from its mouth to St. Paul. The Missisppi river is of course already average from its mouth to St. Paul. The Missisppi river is of course already average have precedent to the Mississippi The Red river rises in Big Stone Like and flows southeastward to the Mississippi The Red river rises in Traverse take, and flows about due north litto Lale Wunnlpeg, and thence through the Nelson river into Hudson bay, is the space between the sources of the Red and Minnesota treers. The two lake, It is said that boats of seme size have peaced from one lake to the other, in high water there is really an unbroken water course from the gulf of Mexico to Hudson bay.

Probably when the final reports come in disasters from the floods in British Columbia will not be ac ually as great as they now appear to be from the didiscaters from the floods in British Columbia will not be ac ually as great as they now appear to be from the didiscaters from the floods in British Columbia will not be ac ually as great as they now appear to be from the didiscate the the beginning of the first part of the final reports the flood of the final reports to the discassing the first part of the final reports to the discassing the first part of the firs

water course from the gulf of Mexico
to Hudson bay.

Probably when the final reports
come in diassters from the floods in
British Columbia will not be ac utility
as great as they now appear to be from
the daily accounts. But, when all due
allowance is made, it will be found
first there is a considerable destruction
of property, both in buildings and in
eattle, along the valley of the Fracer
and some of its low tributaries.

Uniformately to this loss of property
must be added some loss of life.

Trelve years ago there were serious
floods on the Fracer which did a great
deal of damage. Since that time the
loss then sustained has been reparred
not settlement of the country alorg
the lower stretches of the river has in
crossed considerably. The live floods
have, therefore, found more property
upon which to exert their force, and
there has been greatered destruction.

destructive freshot like that from which
the Fracer valley is now sufficing not
only destroys life and property, but it
leaves the land, a great portion, nucless
for a year or two. The government
of Bri life Columbia is doing a great
deal to relieve the nettal diress.
Communities upon the mainland like
Vancouver, which has not suffered
materially, and like Westminatt,
which has suffered somewhat, are girng a helping hand, but there is a
question whether a general Canadian
appeal will not be needed in order to
section sufficient money to at once ope

floods will have another serious effect: they will retard settlement of the country. They make men afraid of regions where such terrible damage is

A.S. STEWART.

and a circus on circus day are two kinds of a thing. The greatest circus is usually on the Bill-boards, and the circus on Circus Day is consequently a disappointment. There is, of course, the occasional except on which proves the rule. McCormick Binders and Mowers are an exception. Their promite on the "Bill-boards" is aways fulfilled on "Circus Day." For years the makers of McCormick Grain and Grass Harvesters have been reliaing the World that they could and world at any time domonstrate the superiority of their machines in the actual competitive field test. The "Bill boards" of other manufacturers have glaringly proclamed that therimachines are the best. But "Circus Day" came at length. The World's Fair urged all these manufacturers to take their machines into the field that the results might be compared. The McCormick was there; its thew went on. It's promises to the World were carried out. But how about the other "great and onlyst"? They stayed at home consoling themselves with the reflection that "the people 16% to be hundraged," and their artists got up new pictures for the "Bill-boards". He fore declating about going into these field trials, the compiliors of the McCormick was they are considered with the McCormick; "—"a live coward is before them a dead hero;"—"a sucker is born every minute, and well catch some of "manyway." That policy may answer for the "Bill-boards" sort of cleus; it will not eleft the McCormick. Promises must not be broken. If McCormick machines are not better than all others, they must not be so abortised if they are so advertised, every Billader, every Reaper and every Mower must be ready at a moment's notice to go cert into the field and show by That's business. Write to the McCormick Parvesting Machine Co. Chicage;—or, better yet, call at once on your nearest McCormick agent.

Coriking miners in the United States are considered in the particular of the authority at Ottava to discover that the barrels we not brand new, and that as soon as insorting was made orders were cabled the matery to cancel the order for the nine thousand Martin at the properties of the authority and the supposition of the presence of a supposition of supp

#### RFD DEER HILL.

The crops which cover more groun than at any former time, are growin splendidly, and the farmers are corre-spondidly happy. The percentage of ground to wheat, outs and barley is also the same as last year, or possibly a sligh increase in wheat.

Potatoss are growing immensely, but with some garden vegetables, loud complaints are heard of the cut worm. The growth of grass in the sloughs is much great, r than tor a number of years.

It is probable that some alteration be made in the limits of our school

Soon.

Our school (Miss Philips, teacher), ha
a good attendance.

a good attendance.

Mr. W.O. McDongall recently arrive here from England. He seems to be we satisfied with our flourishing corner of the Dominion.

Rev. Mr. Robertson, who has officiate here for the year just ended, as pastor of the Methodist church, will probably be removed to some new field.

Farmers are now busy fencing, and if a much should be enclosed each year pasture ground will soon be at a premiur.

Same of the more entergring, sporting. Some of the more enterprising sporting men have prepared a race course on it summit of Rel Deer Hill, and we have been told propose celebrating there on it "Gloriou- Frst."

Mr. Cook, homestead inspector, was around last week looking up a few claims. Several of our neighbours have been out to see the Shell River country, with what success we are not able to say. We are pleased to see Mrs. John Stansfeld recovered from her long and tedious illness.

The health in general of people here good.

ASSIGNED

Prince Albert,

How many persons know that Ripans Tabules, now so largely advertised and used, are simply the favorite prescription of their family dotter prepared in a scientific manner and a form convenient for handling, conveyance, preservation and used. In the great hospitals of the metropolitan cities where the wealthy find better care than in their own luxurious homes, the ingredients of Ripans Tabules are administered to thousands of rich and poor a the with beneficial effect. They are the most dependance of the most care with the second derangement of the dispersive organs, such as dysepsia, constipation, billiousness and other illy connected with the stomach, liver and howels. For some years one of the principal hospitals in New York City has used a formula, differing slightly from the common one, that has been found of unusual efficacy. Through the commendations of physicions its mission of healing has been so widely and rapidly extending that it finally seemed destriable to prepare the prescriptions in a convenient form, so as to make it available to the whole public at a moderate price, and to amnounce the fact through the recognized medium for securing publicity—advertisements in the columns of the newspapers of the land. This has been once, and now the time is not far distant when every family of intelligence will be as certain to passess a supply of Ripans Talules as clock or a cooking stove. They are already to be found on sale almost everywhera, and any office of color will be as certain to passes a cuply of Ripans Talules as clock or a cooking stove. They are already to be found on sale almost everywhera, and any office of color will be as certain to passes a cuply of Ripans Talules as clock or a cooking stove. They are already to be found on sale almost everywhera, and any office as a cooking stove. They are already to be found on sale almost everywhera, and any office and the proposition of the land of the common of the land of the common of the land of the la
